

MAKE IT ARTSY INSTRUCTIONS

DOODLING ON DARK

by Julie Fei-Fan Balzer

INSTRUCTIONS

SUPPLIES

- * Black Cardstock
- * Cray-Pas Oil Pastels by Sakura
- * Optional: baby wipe

1. Draw a face with oil pastels by blocking out areas of color - focusing on light and dark. I like to start with the eyes.

2. You can blend colors and soften areas by rubbing the oil pastel you've applied to the paper with your fingers.

You can use a baby wipe to clean your fingers if you wish.

3. After completing the face (don't forget about the background) you can go back in and layer other colors. I particularly like to do this with white, to add highlights.
