Brother P-Touch Embellish Personalized Photo Memory Jars

For more inspiration visit: <http://ptouch.com>

By: Lynn Lilly, Craft Box Girls

Materials to Make the Beach Vacation Jar

- P-touch Embellish
- P-touch Embellish Cartridges: Turquoise Chevron Tape, Blue/Gold Ribbon, White/Black Ribbon, White/Gold Ribbon
- Large Jar with a Top
- Floral Foam
- Sand
- Photos
- Tooth Picks
- Pebbles

Directions:

1. Select the photos you would like to use for the jars. Glue each photo to a tooth pick.
2. Cut a block of floral foam to fit inside the jar.
3. Pour sand in the jar. Make sure to use enough sand to cover the floral foam.
4. Next use the P-touch Embellish to create personalized messages on ribbon and tape. This is a fun way to add in the location of your vacation and fun memories. I used the white/gold ribbon cartridge to print out the name of beach and attached it to a tooth pick so it looked like a flag. I used the chevron tape and printed out a message that said "Beach Babe". I add it to my favorite beach photo of my daughter.
5. Stick all the photos on tooth picks into the sand, make sure you insert them far enough into the floral foam so they stand up.
6. Add in pebbles and other fun trinkets from your trip.
7. For the final step I used my P-touch Embellish to print a personalized ribbon for the knob of the jar and a message on the front of the jar with the chevron tape!

Depending on the type of trip you want to commemorate in the jar you can use other fillers like pebbles and balloons! Check out the city adventure jar I made below along with the one for our family reunion.

This is such a fun and unique way to commemorate your family trips! Have fun crafting!
